PGR "IsoFlow"

PGR "MixedFlow"

PGR "SuperFlow"

Quatro's PGR Series comes in three unique models. The PGR "IsoFlow" utilizes two filter bags so each station can be used with different metals to keep them separate. The PGR "MixedFlow" is equipped with a 1/2 HP suction motor. The PGR "SuperFlow" has a 1-1/2 HP suction motor for the best suction power.

## Quatro CB-2 Desktop Dust Collector w/o Motor

The Quatro CB-2 Double-Spindle Desktop Polisher is a true all-in-one solution—combining powerful polishing with air purification in a single compact unit. Built to the same high standards as all Quatro systems, it captures precious metal dust while in use and purifies the air when idle, giving you two essential functions in one footprint. Unlike other desktop units, the CB-2 features an offset motor base to accommodate an inside ring polisher on one side, making it both versatile and space-efficient. With its extra-wide design and reliable filtration, the CB-2 helps you breathe easy.
