SDS Revision Date:

09/01/2020

#### 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier	
Product Identity	Castaldo® VLT® Silicone Jewelry Molding Rubber
Alternate Names	Castaldo® VLT® Silicone Jewelry Molding Rubber
1.2. Relevant identified uses of the substance of	r mixture and uses advised against
Intended use	See Technical Data Sheet.
Application Method	See Technical Data Sheet.
1.3. Details of the supplier of the safety data she	eet
Company Name	Goodwin Refractory Services Ltd
	Spencroft Road, Newcastle-under-Lyme,
	Staffordshire, ST5 9JE, United Kingdom
Emergency	
24 hour Emergency Telephone No.	Chem-Tel: 1-800-255-3924
Customer Service:	+44 (0) 1782 66 36 00

#### 2. Hazard identification of the product

#### 2.1. Classification of the substance or mixture

No applicable GHS categories.

#### 2.2. Label elements

Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

No applicable GHS categories.

[Prevention]: No GHS prevention statements [Response]: No GHS response statements [Storage]: No GHS storage statements

SDS Revision Date:

09/01/2020

### [Disposal]:

No GHS disposal statements

### 3. Composition/information on ingredients

There are no ingredients in this product which are classified as hazardous.

4. First aid measure	s
----------------------	---

#### 4.1. Description of first aid measures

General	In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.		
Inhalation	Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.		
Eyes	Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.		
Skin	Use a waterless hand cleaner to remove as much of the remaining material as possible. Then wash with water or water and soap.		
Ingestion	If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.		
4.2. Most important symptoms and effects, both acute and delayed			
<b>A</b> .	NA		

**Overview** May cause slight eye irritation.

### 5. Fire-fighting measures

#### 5.1. Extinguishing media

Recommended extinguishing media; alcohol resistant foam, dry sand.

#### 5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: Measurements have shown the formation of small amounts of formaldehyde at temperatures above about 150 °C (302 °F) through oxidation. **5.3. Advice for fire-fighters** 

SDS Revision Date:

09/01/2020

Water, dry chemical, halones.

Fire fighters should wear protective clothing including a self-contained breathing apparatus. Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases: Hazardous decomposition products: carbon dioxide, carbon monoxide, formaldehyde, silicon dioxide and incompletely burnt hydrocarbons.

Fire and explosion hazards: Caution! This product is not flammable but it may evolve flammable hydrogen gas under certain conditions, which may accumulate in the container headspace. Do not use a welding or cutting torch on or near any container of this material, even if empty, because an explosion could occur. Spontaneous ignition is possible due to electrostatic discharge. The generation of hydrogen gas is increased under circumstances mentioned in Sect. 10 "Stability and reactivity". Contact with contaminated piping or vessels or with corroded and rusty containers can increase the rate of hydrogen formation. Explosion limits for hydrolysis product: 4-75.6% v/v (hydrogen).

#### ERG Guide No.

#### 6. Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8).

#### 6.2. Environmental precautions

Do not allow spills to enter drains or waterways.

----

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

### 6.3. Methods and material for containment and cleaning up

Containment: Prevent material from entering surface waters, drains or sewers and soil. Spills of material which could reach surface waters must be reported to the United States Coast Guard National Response Center's toll free phone number (800) 424-8802.

Methods for cleaning up: Take up mechanically and dispose of according to local/state/federal regulations. Use vented recovery containers. Clean any slippery coating that remains using a detergent / soap solution or another biodegradable cleaner. Apply sand or other inert granular material to improve traction. Eliminate all sources of ignition. Do not seal vessel gas tight. Observe notes under section 7.

#### 7. Handling and storage

#### 7.1. Precautions for safe handling

Do not seal collection vessel gas-tight. Open and handle container with care. Ensure adequate ventilation. Keep away from incompatible substances accordance with section 10.2. Take precautionary measures against electrostatic charging.

#### 7.2. Conditions for safe storage, including any incompatibilities

Handle containers carefully to prevent damage and spillage.

Incompatible materials: alkalis, amines, strong acids, oxidizing agents.

Product can release hydrogen. In partly empties containers formation of explosive mixtures is possible. Keep away from sources of ignition and do not smoke. Keep away from open flames, heat and sparks. Protect against moisture. Store in original container only. Keep container tightly closed and store in well-ventilated place.

SDS Revision Date:

09/01/2020

7.3. Specific end use(s)

No data available.

SDS Revision Date:

09/01/2020

#### 8. Exposure controls and personal protection

#### 8.1. Control parameters

There are no ingredients in this product which are classified as hazardous.

8.2. Exposure controls Respiratory	Not necessary
Eyes	Chemical goggles
Skin	Wear overalls to keep skin contact to a minimum. Butyl rubber protective gloves, neoprene gloves, PVC gloves.
	<ul> <li>Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.</li> <li>Antistatic clothing and shoes.</li> <li>Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.</li> </ul>
See section 2 for furth	er details - [Prevention]

See section 2 for further details. - [Prevention]:

9. Physical and chemical properties			
Appearance	Solid		
Odor	Characteristic		
Odor threshold	Not Measured		
рН	NA		
Melting point / freezing point	NA		
Initial boiling point and boiling range	NA		
Flash Point	NA		
Evaporation rate (Ether = 1)	NA		
Flammability (solid, gas)	Not Applicable		
Upper/lower flammability or explosive limits	Lower Explosive Limit: 4%V (released hydrogen) Upper Explosive Limit: 75.6%V (released hydrogen)		
Vapor pressure (Pa)	NA		
Vapor Density	1.14 g/cm <sup>3</sup>		
Specific Gravity	NA		
Solubility in Water	Not Measured		
Partition coefficient n-octanol/water (Log Kow)	Not Measured

Auto-ignition temperature	NA
Decomposition temperature	NA
Viscosity (cSt)	NA

### 9.2. Other information

No other relevant information.

#### 10. Stability and reactivity

#### 10.1. Reactivity

Hazardous Polymerization will not occur.

#### 10.2. Chemical stability

Stable under normal circumstances.

#### 10.3. Possibility of hazardous reactions

No data available.

#### 10.4. Conditions to avoid

Materials to avoid: Reacts with: alkalis, amines, strong acids, oxidizing agents. Reaction causes the formation of: hydrogen.

### 10.5. Incompatible materials

alkalis, amines, strong acids, oxidizing agents

#### 10.6. Hazardous decomposition products

Measurements have shown the formation of small amounts of formal dehyde at temperatures above about 150  $^{\circ}$ C (302  $^{\circ}$ F) through oxidation.

#### 11. Toxicological information

#### Acute toxicity

There are no ingredients in this product which are classified as hazardous.

Note: When no route specific LD50 data is available for an acute toxin, the converted acute toxicity point estimate was used in the calculation of the product's ATE (Acute Toxicity Estimate).

Classification	Category	Hazard Description
Acute toxicity (oral)		Not Applicable
Acute toxicity (dermal)		Not Applicable
Acute toxicity (inhalation)		Not Applicable
Skin corrosion/irritation		Not Applicable
Serious eye damage/irritation		Not Applicable

SDS Revision Date:

09/01/2020

Respiratory sensitization	 Not Applicable
Skin sensitization	 Not Applicable
Germ cell mutagenicity	 Not Applicable
Carcinogenicity	 Not Applicable
Reproductive toxicity	 Not Applicable
STOT-single exposure	 Not Applicable
STOT-repeated exposure	 Not Applicable
Aspiration hazard	 Not Applicable

### 12. Ecological information

#### 12.1. Toxicity

No expected damaging effects to water organisms.

#### **Aquatic Ecotoxicity**

There are no ingredients in this product which are classified as hazardous.

#### 12.2. Persistence and degradability

Not degradable. (Separation by sedimentation).

#### 12.3. Bioaccumulative potential

Bioaccumulation is not expected to occur.

#### 12.4. Mobility in soil

No data available.

#### 12.5. Results of PBT and vPvB assessment

This product contains no PBT/vPvB chemicals.

#### 12.6. Other adverse effects

According to current knowledge, adverse effects on water purification plants are not expected.

#### 13. Disposal considerations

#### 13.1. Waste treatment methods

Danger of oxyhydrogen gas formation with water, alcohols, acids, metallic salts, amines and alkalis. Material designated for disposal must, be segregated from incompatible substances or materials specified in Sect. 10.2. Dispose of according to regulations by incineration in a special waste incinerator. Observe local/state/federal regulations.

SDS Revision Date:

09/01/2020

14. Transport information

14.1. UN number	DOT (Domestic Surface Transportation) Not Applicable	IMO / IMDG (Ocean Transportation) Not Regulated	ICAO/IATA Not Regulated	
14.2. UN proper shippir name	gNot Regulated	Not Regulated	Not Regulated
